TIDEL PARK PHASE – 3

Work on Pattabiram Tidel Park begins

It will ease pressure on south Chennai

SANGEETHA KANDAVEL
CHENNAI

Construction work for the first Tidel Park of the AIADMK government is under way at Pattabiram, and the first client will login by 2022. "We started work a month ago when the State government announced relaxation for the real estate sector. Work is in progress and a lot of cleaning up is happening with skeletal staff," Tamil Official Language and Culture Minister 'Ma Foi' K. Pandiarajan said. "Tidel Pattabiram would be the first integrated project in the northern part of the city and would hence be able to capitalise on the early developer advantage," he added. Pattabiram falls in his Avadi constituency.

Currently, 90% of IT parks are concentrated in the

Southern parts of Chennai. Managing the resultant traffic congestion – as a considerable number of employees of these IT industries commute from various places in north Chennai – is a challenge for civic authorities.

Traffic congestion

The State government's theory is that once the Pattabiram Tidel Park opens, people in that zone would opt to work there. It will also help in easing traffic distribution and congestion and, in turn, enhance the productivity and profitability of IT companies.

The Minister said that an analysis done by the State government showed that every day, close to 5,000 software professionals from this region were taking buses to various IT belts.

Tiruvallur To Tirupati Highway To Be Four-lane 5 Min From MP EDEN

Ram Sundaram / TNN / Updated: Mar 14, 2024, 15:49 IST

NHAI initiates a 985 crore, four-lane highway project from Tiruvallur to Tirupati to reduce travel time. The initiative includes access control, underpasses, and traffic diversions, with ongoing challenges in expanding lanes and facing delays.

CHENNAI: The National Highways Authority of India (NHAI) is set to begin construction of a four-lane highway from Tiruvallur to Tirupati at an estimated cost of 985 crore by August. The initiative aims to reduce travel time between Tiruvallur and Tirupati to 90 minutes.

Following the conclusion of the tender process, the road expansion project was awarded to Oriental Structural Engineers Pvt. Ltd on March 9. The 44-km stretch will be access-controlled to limit the entry and exit of local two-wheelers and cars, except at two intersection points where new toll plazas might be established.
