

The era of
GT BHARATHI.

A partnership based on trust between GT Realty and Bharathi Meraki fortuitously led to the creation of GT Bharathi Urban Developers. Community, progress, and development are at the core of our beliefs. This is the seal of GT Bharathi's excellence.

A life suited to our nature
ROOTED IN NATURE.

All it takes is for one deep breath in the heart of nature to set right our inner being. There is something utterly captivating about nature: blue skies, the tickle of a fragrant breeze, the sweet smell of spring flowers, and cool, clean air. Nature has a way of clearing our mind and heart; it soothes our soul and calms our spirit. This is the Republic of Nature, an eco-living haven that is inclusive, pluralistic, and natural. The material palette of the homes of the Republic of Nature is sustainably sourced from nature and bolstered by technological innovations with earthy finishes and tones that complement the essence of the Republic of Nature.

VILLAS | PREMIUM VILLAS | LUXURY VILLAS

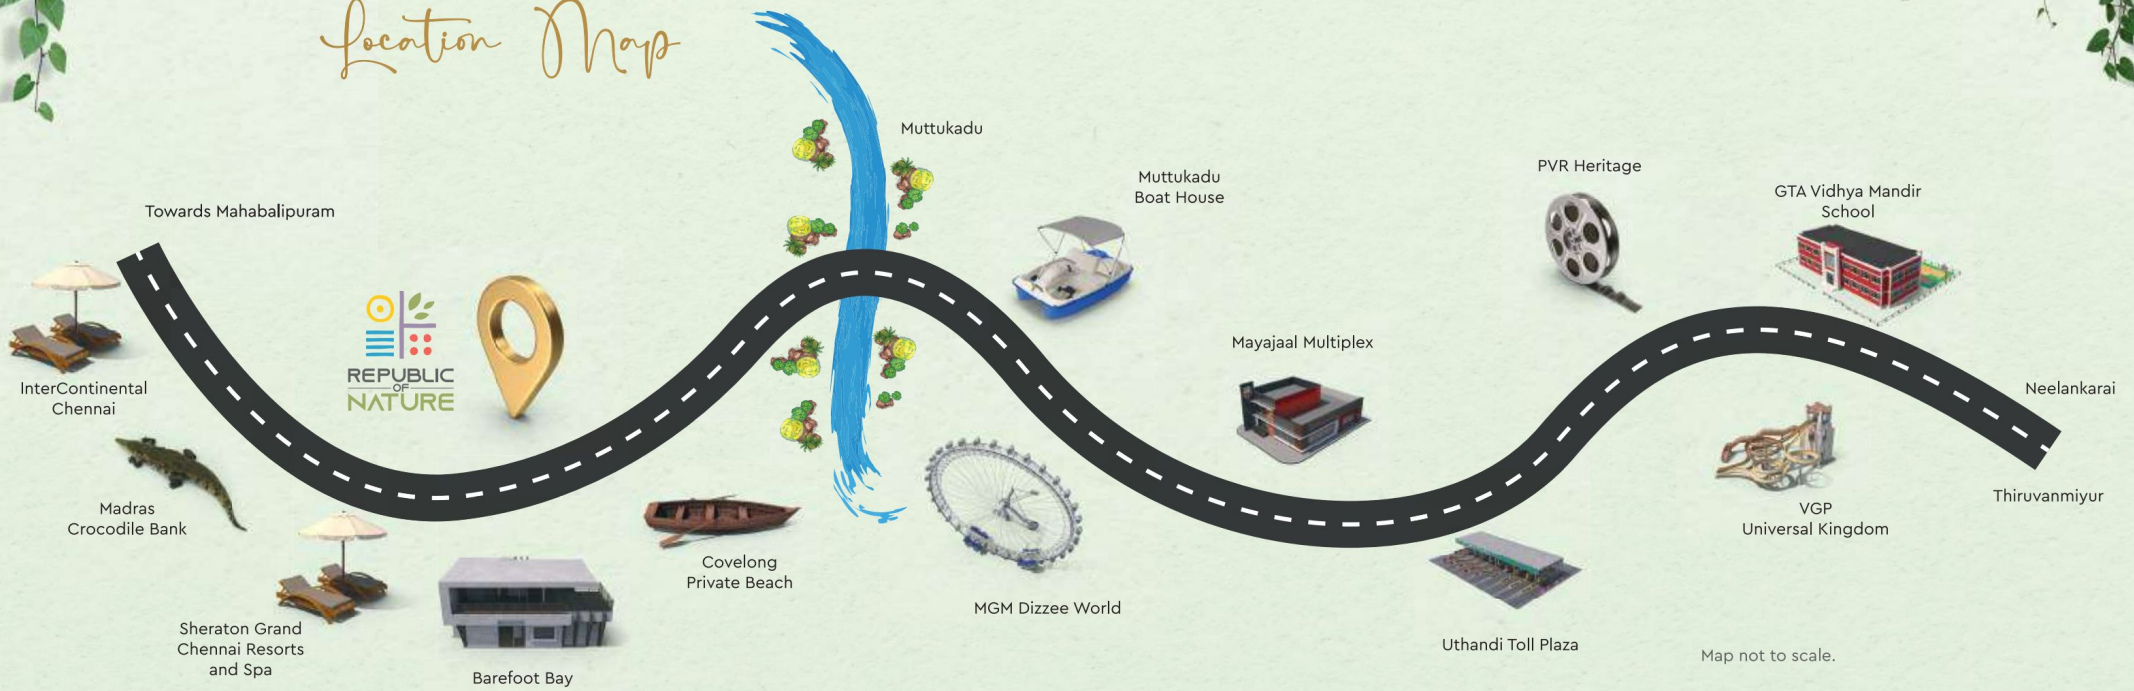

The background of the entire page features a serene landscape. In the foreground, there's a bright blue pond with realistic water ripples. Two pink lotus flowers are in bloom on the water's surface. In the middle ground, a traditional Japanese-style wooden arched bridge with a dark brown finish spans across the pond. To the left of the bridge, a lush green tree is partially visible. The sky is a soft, pale green. In the top right corner, a small branch with green leaves hangs down.

The beauty of PRISTINE NATURE.

At the heart of the Republic of Nature is a deep love and appreciation of Mother Nature and her generous reserves. Beautiful bioswales, meticulously-crafted as a natural biofilter and rain watersheds grace with boldness between pathways carved out for experiential walkways and pathways. It is a community based on environmental mindfulness, taking care to keep it free of vehicles, kid-welcoming, elder-friendly while housing a dedicated car path and parking floor for all units. Bursting at the seams is flora and fauna native to the Republic of Nature with species that are given a new home to be appreciated in ways never before; with a proposal for the future development of a man-made beach and a SeleQtions Hotel curated for you to savour life at its finest.

Specifications

INFRASTRUCTURE

- **Internal Roads**
Pathways with mud concrete, grit wash, and paving stones.
- **External Compound Wall**
The layout will be surrounded by a compound wall; the east-side compound wall near the front entrance will have a combination of exposed brick, and exposed hand-dressed stone masonry.
- **Water Supply**
HNS system for Phase I of the project.
- **Electricity**
CCTV and common lighting in the pathways, parks, and basements.
- **Telephone/Internet**
Provision of underground cables for telephone lines and broadband internet in each house.

- **Landscape**
All common areas, including the open-air theatre and playground, will be landscaped with trees and parks.
- **Electrical Charging Points**
Common space for EV charging points.
- **Power Backup**
Genset power backup for villas (including air-conditioning system).
- **Sewage Treatment Plant (STP)**
STP for the entire Phase I development, with adequate capacity. The treated water shall be used for the greenscape.
- **Fire Safety**
An adequate number of fire extinguishers will be provided wherever needed.

STRUCTURAL SPECIFICATIONS

- **Structure**
RCC-frame structure with plywood shuttering and M25 concrete.
- **Reinforcement**
Steel of Fe-550 grade.
- **Roof & Terrace Slabs**
RCC sloping and flat slabs.

MASONRY

- **External Walls**
A combination of 200mm-thick Porotherm blocks and brick-cladding tiles.
- **Internal Walls**
A combination of 100mm and 200mm-thick solid blockwork.
- **Side Walls**
A combination of 200mm-thick Porotherm blocks and 200mm-thick solid blockwork.

Specifications

FINISHES

- **Exterior Finishes (Walls & Roofing)**

Walls: Brick-cladding tiles with a clear coat, and plastered walls with texture paint, in accordance with the architect's suggestions.

Sloping Slab: Mangalore tiles/shingles or equivalent above sloped slab and solar panels on the meter-side roof.

Flat Roof: Exposed terrace area – 9' x 9' clay tiles with 10mm spacers and red oxide grouting.

Balcony and Sunshades: GI industrial-style sloping roof with Mangalore tiles, supported by wooden brackets along the sides.

GI Industrial-style Pergolas: At the villa's entrance and the open terrace on the first floor.

- **Interior Finishes (Walls & Ceilings)**

Walls: They will be plastered and finished with a premium emulsion paint.

Toilets: Matte-finish vitrified wall tiles (4' x 2') up to lintel level, with patterned tiles on the ledge wall. Paint finish above to match the tile colour, as per the architect's suggestion.

Granite coping with chamfered edges for the ventilator sill, ledge wall top, and niches, wherever required.

Helper's Toilet: Wall tiling up to 5 feet from the finished floor level, with a paint finish above to match the tile colour, in accordance with the architect's suggestion.

Ceilings: Exposed concrete with a clear coat finish.

Toilet Ceilings: Calcium silicate false ceiling without a grid, wherever applicable.

FLOORING

- **Common/Outdoor Areas**

Sadarahalli stone (flamed finish).

- **Veranda/Patio**

Leather-finish black granite or leather-finish Kota stone (grey, green or yellow).

- **Living Room/Dining Room/Family Lounge**

Leather-finish Azure Beige tiles with inlays.

- **Kitchen/Utility Area**

Matte-finish vitrified tiles (minimum size of 4' x 2').

- **Master Bedroom**

Solid hardwood flooring or matte-finish vitrified tiles (minimum size of 4' x 2').

- **Other Bedrooms**

Matte-finish vitrified tiles (minimum size of 4' x 2').

- **Green and Open Terraces (First Floor)**

Leather-finish Kota stone (2' x 2', grey, green, or yellow) or rustic-finish tiles (2' x 2').

- **Staircase**

Tread – Solid hardwood or leather-finish black granite.

Riser – Printed tiles wherever required.

- **Toilet Floors**

Dry Area – Matte-finish vitrified tiles (4' x 2').

Wet Area – Cera grey granite or equivalent matte-finish vitrified tiles.

Specifications

JOINERY

- **Main Door**
Seasoned hardwood frame (1st class teak or equivalent) and fully panelled door with clear polish as per the architect's design, along with the necessary hardware fittings in antique brass/black finish.
 - **French Doors (Sliding Door and Sliding, Folding Door)**
Aluminium system windows from brands such as Tostem, Technal, Schüco or of an equivalent make, along with mosquito mesh, wherever required.
 - **Internal Doors**
Flush doors (veneer finish on both sides), with architrave frames, along with the necessary hardware fittings in antique brass/black finish.
 - **Toilet Doors**
Flush doors with one side veneered and the other side laminated, with architrave frames.
 - **Glass Partition in the Shower Area**
